CORRECT SIZING

WE PROVIDE A DETAILED GUIDANCE FOR TAKING MEASUREMENTS

The figures in the size guide tables on page 36 are **body measurements** in centimetres (and not that of the garments). The garments will be appropriately larger to allow comfort and ease of movement. Please remember not to add any excess centimetres when providing measurements.

To choose the right size of clothing, **measure yourself accurately at the body**, with no extra loose on the tape, and then match the resulting measurements to the figures given in the size guide tables. If the measurements cannot be matched with our size guide tables, please note that we can supply clothing in a non-standard size. Please provide the body measurements in centimetres on the order form, if in doubt.
